

We Want You! To Be Our Intern

Museum Exhibit & Collections Internship

The Manatee County Agricultural Museum seeks an enthusiastic and qualified individual for our Museum Exhibit & Collections Internship. Through this project the intern will learn the fundamentals of museum exhibition development through research, script development, and design. The intern will also gain experience with utilizing existing collections as well as digital collections from outside institutions. This project would provide excellent experience for someone looking to a future career in museums or in the public history field. The intern will work closely with staff who will provide training and guidance for all activities.

Main Responsibilities:

- Research, create, and design a minimum of two (with potential of four) poster exhibits on designated topics.

Additional responsibilities may include:

- Work with Curator on Exhibit Research or Collections as opportunities arise

Preferred Qualifications

- Must have an interest in museum interpretation and historical research

Work Schedule

Internship will have flexible schedule tailored to the intern's availability. Interns will work no more than 10 hours per week. This is an unpaid internship.

Academic credit will be provided for undergraduate or graduate students by the institution when available. We understand the value of intern's work and our responsibility to mentor the next generation of museum professionals.

Deadline:

Please send a completed application to Melissa Morgan, Curator at melissa.morgan@manateeclerk.com.

About the Manatee County Agricultural Museum

The Manatee County Agricultural Museum seeks to preserve, share and educate the community about Manatee County's agricultural heritage and to support local agriculture today and into the future. The Museum is located within the Palmetto Historical Park with Core exhibits that focus on the county's primary commodities. Find out more about us at www.manateecountyagmuseum.com and on Facebook.
